Application Scenario

Cultural tourism

Whether it's a corporate conference or a social gathering, our AI avatar customization service generates a personalized avatar for each participant that aligns with the event theme, enhancing interactivity and elevating the event experience.

Event

In cultural and tourism events, our AI technology generates personalized photos for visitors based on the unique features and culture of the attractions. By incorporating local scenic landmarks and architectural styles, we create distinctive travel mementos, enhancing the overall tourist experience.

Exhibition hall

In the exhibition hall, our AI avatar customization service provides each visitor with a unique, personalized avatar that matches the style of the exhibition, enhancing the brand image and making the display more engaging.
